

Hello F.C.C, While I don't always agree with everything proposed by the American Radio Relay league, I find myself in complete agreement with RM-10867. I have been an Amateur radio operator since 1963 with various licenses and have been an extra class licensee for quite some time now. I think the A.R.R.L. proposal is sound, prudent, and will lead to a better and bigger Amateur Radio service that will serve the nation's best interests well into the future. Thank you for the opportunity to state my opinions.
Gary - WB8ROL
